

CYOC

Gleaning with Project Share

Saturday, October 16
Meet at Project Share at 8:15 am
then travel to an orchard to pick apples for Project Share

Families with children of all ages are welcome to participate together

Youth in 7th grade and up may join us individually

Gleaning is a biblical concept described several places in the Bible. The grower purposely leaves extras from the field behind for the poor to gather to feed their families. Project Share volunteers collect excess but perfectly good food the farmer does not pick, or cannot sell.
